Attached are single copies of both the General and Clandestine Service editions of the new OTR Catalog of Courses, to which I hope you will be able to give some attention and strong continuing support. It embodies two important departures from earlier catalogs:

a. At the request of the Executive Director it has been completely revised to present a basis not merely for satisfying the Agency's needs for immediate functional training, but especially for the planning of career development as appropriate to each component and throughout an individual's career.

b. It is now published in two versions because of the DDP's desire that we hold down distribution of information on courses for the CS. Both editions are being sent to certain officers in the Director's office, to the Deputy Directors, and to the Board of Visitors to the Office of Training, all of whom need to be generally aware of the whole scope of training available. The CS edition will go to all staff and division chiefs and all training officers in the CS; the General edition will go to all heads of offices and all training officers in the other directorates. The editions are identical with respect to all courses generally available to personnel throughout the Agency.
